GLP Tech Note

GLP MAD MAXX
20251113 - Tech Note - MAD MAXX IP Classification Update
11/21/2025

GLP's strategy is to ensure that its products remain active in the marketplace as reliably and as long as possible. In support of this strategy, we are committed to communicating technical changes or anomalies transparently with our customers. The following technical information is intended to provide general information on technical changes or anomalies. They are intended in particular for service technicians to be informed quickly and appropriately in the event of functional deviations or defects.

Product Change Notification

The MAD MAXX was originally specified and series-produced with an IP65 classification. Recent IP certification testing by TÜV Rheinland has confirmed compliance with IP66 requirements.

As a result, the IP rating for all MAD MAXX units from production series with serial numbers **20043****, **20143****, **20243****, **20343****, and all future production batches has been upgraded to **IP66**.

Correspondingly, all product documentation, marketing materials, and device labeling have been updated to reflect the new classification.

No responsibility taken for misprints, errors and technical changes.
Technical data is subject to change without notice as a result of product modification.
