## The Future of LED Blinders

The GLP MATRIX Eye is the first fixture in the groundbreaking new MATRIX Series – a smart cluster system that allows you to mechanically link multiple frame fixtures into one seamless lighting unit. Build your own custom lighting system with LED Blinders and more, with additional MATRIX products coming soon.

Powered by high-efficiency RGBAL LEDs and the innovative GLP iQ.Gamut Color Algorithm, the MATRIX Eye delivers intense color output and high-quality white light with superior color rendering. It faithfully replicates the classic tungsten behavior of traditional DWE Blinders, offering an authentic, warm dimming curve with all the benefits of LED technology.

Designed for maximum performance and affordability, the MATRIX Eye features a smart yet cost-effective construction. This ensures a low investment price, rapid ROI, and competitive rental rates—making it the perfect choice for lighting professionals who demand reliability, versatility, and cost efficiency.

Elevate your lighting game with the GLP MATRIX Eye – where innovation meets tradition.
